# INTRODUCTION

## Objective of the Digest

The main objective of this digest is to provide critical tourism information and statistics to Government Ministries and Agencies, Tourism Stakeholders, Existing and Potential Investors, Students and the General Public. This digest will most importantly help to guide policy decision making, marketing strategies, product development and investment opportunities in the tourism industry.

Information and statistics are included on Visitor arrivals by Months, Main Markets, Ports of Entry, Purpose of Visit, Birthplace, Countries, States and Provinces, Accommodation, Length of Stay, Gender, Age Group, Air, Land and Sea and total Air Passenger arrivals (residents and visitors).

## Geographic Scope

Data was collected from the four main ports of entry of Guyana, namely Cheddi Jagan International Airport (CJIA), Eugene F. Correia International Airport (EFCIA), Moleson Creek (Guyana/Suriname Border Crossing) and Lethem (Guyana/Brazil Border Crossing).

## Data Sources and Methodology

The methodology employed for the production of this digest involved the use of the data from the Embarkation/Disembarkation (E/D) Cards collected from the four main ports of entry and the Tourism Information Management System (TIMS); an upgrade from the Management Information System for Tourism (MIST).

The data from the E/D cards were inputted by the Tourism Information Clerks into TIMS, after which analysed reports were generated on a monthly basis. Data files and reports were submitted to the Caribbean Tourism Organisation's (CTO's) Statistical Department for analysis to ensure accuracy of reports produced by the GTA.

Tables and charts were generated based on information provided on the E/D cards by visitors as well as from the 2015 Edition of this digest. Total passenger arrivals data were provided by Cheddi Jagan International Airport (CJIA) and Eugene F. Correia International Airport (EFCIA).

## Definitions

The following are definitions adopted by the United Nations World Tourism Organisation (UNWTO):

- **Visitor:** *A visitor is a traveller taking a trip to a main destination outside his/her usual environment, for less than a year, for any main purpose (business, leisure or other personal purpose) other than to be employed by a resident entity in the country or place visited.*
- **Tourist (or overnight visitor):** *A visitor (domestic, inbound or outbound) is classified as a tourist (or overnight visitor), if his/her trip includes an overnight stay, or as a same-day visitor (or excursionist) otherwise.*

**Visitor Arrival figures** in this digest represent non-residents. As such, Guyanese living in Guyana and those who travel aboard for the purposes of holiday, business, study or temporary work are not included in these figures.

There were high levels of E/D Cards submitted without pertinent data, such as length of stay, place of residence, purpose of visit and type of accommodation.

# ANALYSIS

## **VISITOR ARRIVALS BY MONTH 2011 to 2016**

As seen in Table 1 and Chart 1, the months of March, April, July, August and December consistently recorded the highest visitor arrivals in the years 2011 to 2016, as such these months are referred to as Guyana's peak periods and are mainly due to Diaspora travellers.

In 2016 March, May, July, August and December recorded 119,639 visitors or 51% of total visitor arrivals for the year. May; usually an off peak month doubled its arrivals due to the influx of visitors for Guyana's Golden Jubilee Independence Celebrations. January, February, April, June, September, October and November accounted for 115,659 visitors or 49% of total arrivals for 2016.

## **VISITOR ARRIVALS BY MAIN MARKETS 2011 to 2016**

Table 2 and Chart 2 show visitor arrivals trend by main markets for the period 2011 to 2016. The USA market has consistently recorded high figures over the said period with the highest figure being recorded in 2012. The Caribbean figures have consistently increased over the period with a slight decline in 2012. Visitor arrivals from Canada have fluctuated over the period, while South and Central America figures sharply increased from 2013 to 2015 with a decline in 2016. Europe continued to record slow but steady increases over the period.

Guyana's main markets with percentage share in 2016 as shown in Chart 3 are the United States of America (USA) with 39%, the Caribbean with 36%, Canada with 10%, South and Central America with 7%, Europe with 5% and Other/Not Stated with 3%.

## **VISITOR ARRIVALS BY MAIN MARKETS AND BIRTH PLACE 2016**

As shown in Table 4, 45.4% of total visitors for 2016 were born in Guyana; 54.4% were not born in Guyana and 0.2% did not state their place of birth.
